

COLD CLIMATE HVAC & ENERGY

16-18 June 2027 Espoo, Finland

Sponsorship

Science meets solution and decision makers

International SCANVAC conference COLD CLIMATE HVAC & ENERGY is dedicated to heating, ventilation and air conditioning systems performance closely combined with healthy indoor climate and highly energy performing buildings. Conference series was founded by SCANVAC in 1994 and has been held every two years since 2021.

Conference will arrange keynote presentations, invited presentations, session discussions and it is open to all scientists and technologists to call for high-quality, original and excellent academic papers in english. It will gather together professionals all over the cold climate world.

Main themes of the 2027 conference at Aalto University are Sustainability and Resiliency, Sustainable Heating and Cooling, Smart Energy System and Zero Emission Buildings.

Get the best of your market and pounce by becoming a sponsor of COLD CLIMATE HVAC & ENERGY 2027!
